

INFORMATION DISCLOSURE

Further to the Company's Disclosure of Information dated 21 April 2026 regarding the implementation of the Pre-scheduled Plant Closure at the Banggai Ammonia Plant ("BAP"), operated by PT Panca Amara Utama, a subsidiary of the Company, the Company hereby informs that the scheduled maintenance activities were successfully completed at 23:00 WITA (Central Indonesian Time) on 8 June 2026.

All planned inspection, maintenance, equipment replacement, and plant reliability improvement activities have been successfully executed as scheduled and based on the stringent safety standard. BAP has returned to full operational capacity.

The successful completion of this maintenance program reflects the Company's commitment to maintaining operational reliability, upholding the highest safety standards, and supporting long-term operational excellence.

BAP is one of the most efficient ammonia plants in the world, utilizing KBR Reforming Exchanger System & Purifier Technology. This scheduled maintenance is expected to support improvements in BAP's operational performance and reliability going forward.
